entrepreneurs, and corporate executives, as well as business and economics students and their professors. It contains rich analysis of how sustainability is being factored into industries across the globe, with enlightening case studies of businesses serving as agents of change. Contributing authors provide a groundbreaking body of research-based knowledge. They explain that the concept of sustainability is being re-framed to be positive about business instead of being tied to the old notion of a trade-off between business and society (that is, if business wins, society and the environment must lose), and they explore how economic development can contribute to building our common future.

Romantic narratives in international politics Alexander Spencer 2016-07-01 Introducing insights from literary studies and narratology into international relations, this study examines the

romantic narratives of pirates in Somalia, rebels in Libya and private military and security companies in Iraq.

Goldstein on Copyright Goldstein 2005-01-01 A comprehensive treatise with detailed analysis of every aspect of copyright law, from registration to licensing to infringement and litigation. Written by Paul Goldstein, Professor of Law at Stanford University and of Counsel to Morrison & Foerster. Includes explanations of applicable copyright law to the music, publishing, motion picture, commercial art, and software industries. Also covers international copyright law, as well as the intersection of copyright law with bankruptcy, antitrust law, and Lanham Act doctrines that fill in the gaps in traditional copyright protection.
